

Our Impact

At Casa de Fe, it's more than laundry and dishes. We are healing broken hearts, literally and figuratively. We advocate for our children, help those dealing with trauma, and provide consistent loving care. It's strenuous emotional work with a great reward.

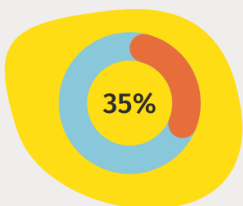

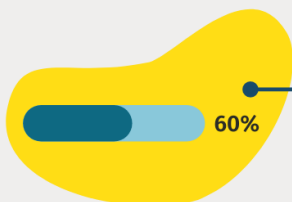

350 Nightly Prayers each week

Our Tias (caregivers) help the children with nightly Bible study and prayers. Teaching them to rely on God's promises, when they need it most.

Children are Adopted or Reunified

We advocate for all our children to have a permanent family, either biological or adopted.

Percent of Children Require Care for a Lifetime

Due to special medical needs or physical or mental disabilities, these children will remain with us for life.

3 Life-Saving Surgeries this year

We provide regular doctor visits and vital surgeries for medical conditions for our children.

Fundación Casa de Fe

Our Tias work 9 days in a row for 24-hour shifts. 8 Tias at time come live on-site and care for the children then return to their own families.

12 Volunteer Teams

On average we host 12 volunteer teams per year. These volunteers bring supplies, work ethic, and compassion. They leave with their hearts bursting with love.

500 Total Kids Served

And counting! In our 15 years, we have served more than 500 beautiful Ecuadorian children. This important work needs to continue. **Can you help?**
